Musurmon Azamqulov

WEB DEVELOPER | Available for Engineering Roles

azamqulov.com
Surxandaryo, Uzbekistan
azamqulov0102@gmail.com
+998 77 040 46 24

Strategic and versatile **Web Developer** specialized in crafting fast, accessible web solutions, cross-platform desktop software via **Tauri**, and containerized architectures with **Docker**. Proficient across modern front-end frameworks (**React.js, Vue.js**) alongside cloud deployments, intelligent automation workflows with **n8n**, and LLM API integrations. Committed to writing clean code and shipping high-impact products.

PROFESSIONAL EXPERIENCE

Independent Web & Software Developer
2024 – Present

Freelance & Engineering Projects • Remote

- Designed, developed, and deployed complete digital platforms, including the live showcase site **azamqulov.com**.
- Created lightweight desktop applications using **Tauri** and containerized server utilities with **Docker**.
- Engineered automated multi-step workflows, webhooks, and Telegram bots utilizing **n8n** and AI/LLM APIs (Groq, Google AI Studio).
- Configured automated cloud deployment pipelines, DNS, and SSL monitoring on Railway, Render, and GCP.

Frontend Developer Intern
Mar 2024 – Present

IT Center • Surxandaryo, Uzbekistan

- Developed interactive, user-focused web interfaces utilizing React.js, Tailwind CSS, and modern JavaScript (ES6+).
- Structured modular component architectures and managed team code reviews via Git and GitHub.
- Optimized client-side rendering speed, UI consistency, and cross-browser responsiveness.

FEATURED PRODUCTION WORK

azamqulov.com (Developer Portfolio)
Live Production

Central developer showcase featuring case studies, live demo web applications, service capabilities, and interactive technical write-ups.

Tauri Cross-Platform Software
Desktop Utilities

High-performance desktop tools utilizing native system capabilities, minimal RAM usage, and modern web UI technologies.

AI & Automation Cloud Agents
n8n • Docker • APIs

Scalable automation systems running in Docker containers, processing live webhooks, and delivering AI-powered services.

Frontend	Desktop	DevOps
REACT • VUE	TAURI NATIVE	DOCKER • N8N

TECH STACK

FRONTEND TECHNOLOGIES

React.js | Vue.js | Tailwind CSS | JavaScript ES6+ | HTML5 / SCSS | Bootstrap

DESKTOP & EXTENSIONS

Tauri | Desktop Apps | Chrome Extensions | Desktop UI

BACKEND & CONTAINERS

Docker | REST APIs | Python | Firebase | Git / GitHub

CLOUD & AUTOMATION

n8n Automation | AI / LLM APIs | Railway / Render | Google Cloud | Telegram Bots

EDUCATION

Frontend Web Development
IT Center Xalqobod

Jan 2023 – Jan 2024 • Surxandaryo

In-depth coursework in JavaScript frameworks, component design, responsive architecture, and web systems.

Musurmon A'zamqulov

WEB DASTURCHI | Yangi Loyiha va Takliflarga Ochiq

azamqulov.com
Surxondaryo, O‘zbekiston
azamqulov0102@gmail.com
+998 77 040 46 24

Zamonaviy frontend arxitekturasi (**React.js, Vue.js**), **Tauri** orqali operatsion tizim xotirasini tejaydigan desktop dasturlar hamda **Docker** konteyner texnologiyalari bo‘yicha amaliy tajribaga ega **Web Dasturchi**. Shaxsiy va buyurtma loyihalarda to‘liq ishchi holatdagi veb-saytlar, brauzer kengaytmalari va **n8n** yordamida sun'iy intellekt (LLM) bilan avtomatlashtirilgan tizimlarni yaratadi.

KASBIY TAJRIBA

Mustaqil Web va Dasturiy Ta'minot Dasturchisi
2024 – Hozirgacha

Freelance va Shaxsiy Loyihalar • Masofaviy

- Barcha bosqichlari to‘liq yo‘lga qo‘yilgan veb-ilovalarni, jumladan **azamqulov.com** rasmiy portfolio platformasini yaratdi va ishga tushirdi.
- **Tauri** asosida tezkor desktop dasturlarini va **Docker** orqali konteynerlashtirilgan xizmatlarni ishlab chiqdi.
- **n8n** va sun'iy intellekt (Groq, Google AI) API-lari yordamida jarayonlarni avtomatlashtiruvchi Telegram botlar va axborot oqimlarini integratsiya qildi.
- Railway, Render va Google Cloud muhitlarida loyihalarni deploy qilish, SSL xavfsizlik va monitoring ishlarini yo‘lga qo‘ydi.

Frontend Dasturchi Stajyor
Mart 2024 – Hozirgacha

IT Center • Surxondaryo, O‘zbekiston

- React.js va Tailwind CSS texnologiyalari orqali barcha qurilmalarga to‘liq moslashuvchan (responsive) interfeyslarni shakllantirdi.
- Git orqali jamoaviy kod yozish, qayta ishlatiluvchi komponentlar tuzilishi va xalqaro standartlarga amal qildi.
- Veb-ilovalarning yuklanish tezligini oshirish va foydalanuvchi tajribasini (UX) sezilarli darajada optimallashtirdi.

ISHLAB CHIQILGAN ASOSIY LOYIHALAR

azamqulov.com (Rasmiy Portfolio)
Jonli Sayt

Dasturchining barcha xizmatlari, amaliy tajribasi va loyihalarini interaktiv tarzda taqdim etuvchi shaxsiy platforma.

Tauri Desktop Ilovalari
Desktop Dastur

Operatsion tizim xotirasini deyarli band qilmaydigan, yuqori tezlikda ishlovchi qulay va yengil kompyuter dasturlari.

Aqlli Cloud va AI Botlari
n8n • Docker • AI

Ma'lumotlarni avtomatik qayta ishlovchi, bulutli serverlarda ishlaydigan va AI bilan qurollangan Telegram tizimlari.
